

DP World ILT20 Season 5 Player Auction Guidelines

Introduction & Logistics

- The auction will take place at (venue tbc) on Monday 5th October starting at 11am GST (guests are invited to arrive from 10am). The auctioneer will be Richard Madley.
- A briefing will be held at 6pm at the auction venue on Sunday 4th October for Franchises to run through the plan for the day and take questions. At this briefing, a draw will be made to select which franchise sits at which table in the room.
- Each Franchise must have at least two representatives present at the auction. One person per Franchise will be the nominated bidder and hold the bidding padel. A maximum of 8 people per Franchise may sit at the auction table and each must be accredited for the event. There will also be opportunity for up to 10 further guests from each team to watch the auction live from the viewing area.
- Coverage of the auction will be produced by ILT20 and streamed live on Zee 5 and ILT20's YouTube channel. Live text updates will also be provided.
- Franchise media teams are welcome to attend the auction and must observe the auction content guidelines (separate guidelines will be issued).

Auction Purse and squad composition rules

- Each Franchise will have a purse of \$1,300,000 to spend at the auction, plus whatever spend remains unutilised from the \$700,000 that was available for direct signings and retentions. ILT20 will advise in advance of the auction how much auction purse remains for each Franchise. Screens in the room will show how much of the auction purse remains in real time, using software provided by Kadamba.
- Each Franchise must comply with the squad rules for Season 5 when signing players at the auction.
- At the end of the auction, each Franchise must have spent a minimum of \$1.5m and a maximum of \$2m (excluding Wildcard). In the event that any Franchise has not spent \$1.5m at the conclusion of the auction, the remaining balance will be taken away from their Season 5 central distribution.

- At the end of the auction, each Franchise must have a minimum of 18 players and a maximum of 23 players. Within this there must be a minimum of 11 players from ICC Full Member countries (at least 4 of which must be from Afghanistan and at least 1 of which must be from Ireland), a minimum of 4 players from the UAE, a minimum of 1 player from Kuwait, a minimum of 1 player from Saudi Arabia and at least 1 further player from ICC Associate countries (excluding the UAE, Kuwait and Saudi Arabia). Screens in the room will update each squad composition in real time.

Player registration

- The ILT20 player registration portal will be open from August 3rd to September 12th.
- Players will register for the portal submitting their personal details, a link to their ESPNcricinfo/similar profile, agents' contact details and their base price.
- Full member players and associate players (excluding UAE, Kuwait and Saudi Arabia) will have the option to set their own base price for the auction as per the following levels:
 - USD \$10,000
 - USD \$40,000
 - USD \$80,000
- Players from Afghanistan and Ireland will have the option to set their base prices at the above levels, with the following provisos:
 - To have a base price of USD \$40,000, they must have been capped at international level and/or have played in DP World ILT20 previously.
 - To have a base price of USD \$80,000 they must have been capped 100 or more times at international level (may be cumulative across Tests, ODI and IT20).
- All UAE, Kuwait and Saudi Arabia players have a base price of USD \$10,000.
- ILT20 will compile the list of all players that have registered for the auction, and circulate this list to Franchises to express interest in which players they would like to be included in the final list for auction day.

Auction mechanics

- Players will be allocated sets on account of status (i.e. Capped UAE player/Full member/Associate player/Uncapped UAE Player/Kuwait player/Saudi Arabia player) and specialisation (batsman, bowler, all-rounder, wicketkeeper etc).
- Each set will include 6-10 players.
- Within the sets, players will be drawn at random and the auctioneer will read out the player's name and his base price. The auctioneer will then invite bids until there are no further bids.
- The base price of the player will be visible on screens during the auction, with the bidding shown in real time. Representatives from Kadamba will update the bids.
- Once a player has received his first bid in the auction, bids will be raised in the following increments:
 - USD \$2,000 for bids between USD \$10,000 and USD \$ 50,000;
 - USD \$5,000 for bids between USD \$50,000 and USD \$100,000;
 - USD \$10,000 for bids of USD \$100,000 and above.
- When a player has been "sold", as declared by the auctioneer, ILT20 will provide a form for the Franchise to sign, confirming that they have acquired the player. Within 10 days of the auction's conclusion, the player must have completed a full ILT20 player agreement via DocuSign.
- Following the conclusion of all sets (Full member, Associate Member, UAE Players, Kuwait players and Saudi Arabia players), if Franchises still have room in their squad, they may request up to 8

players from the Accelerated Set to be put forward into the auction. A digital form will be provided and these players will be placed into sets for the Accelerated Round.

- Once all Franchises have spent their minimum total spend (\$1.5m per team) and has fulfilled their minimum quotas of each type of player, they will be asked if they wish to end the auction. Once all 6 Franchises have fulfilled their minimum requirements and are either unable or do not wish to sign any more players, the auction will be declared finished by the auctioneer.

Player Rights to Match

- Franchises will each have 4 Rights to Match to use during the auction:
 - One for a Full member player that played for that Franchise in Season 4 (including Afghanistan and Ireland)
 - One for an Associate member player that played for that Franchise in Season 4
 - One for a UAE player that played for that Franchise in Season 4, or was part of their Development Squad in the 2026 ILT20 Development Tournament
 - One for a Kuwait or Saudi player that played for that Franchise in Season 4
- All of these Rights to Match are optional and not obligatory.

Replacement Players

- If a player is injured, receives an international call up or does not receive an NOC, they may be replaced at any time until the end of the league phase of DP World ILT20 Season 5. Once the tournament support period has commenced, approvals for replacement players must be granted by the ILT20 Technical Committee.
- Replacement of Mandatory Players (i.e. UAE, Saudi Arabia, Kuwait, Afghanistan or Ireland) must come from the pool of players that registered for the auction. Replacement players from other nations do not have to have registered in the player auction.
